WHY THIS DELEGATION IS DIFFERENT

This is not a traditional delegation of business leaders meeting policymakers. It is a curated convergence of the individuals actively shaping Africa's infrastructure future.

Powered by Africa will unveil its Top 100 Most Influential Africans in Infrastructure, a distinguished cohort of leaders delivering multi-million- and multi-billion dollar projects across energy, construction, technology, and communications. These are not observers of growth. They are the architects of it.

They will be joined by a carefully selected group of influential leaders from the UK, Europe, the United States, Canada, and the Middle East, creating a high-level ecosystem of decision-makers, investors, and operators.

Beyond structured business engagements, the delegation offers a fully immersive experience. From cultural programmes that provide authentic local insight, to an exclusive Influencers Black Tie Gala, and premium 5-star accommodation throughout. Every element is designed with intention.
